

## MEET THE TRAINERS

Brushy Hill Farm is devoted to providing the utmost care for both our horses and students. Owners, Ev and Tiffany are lifelong instructors who offer decades of experience and extensive knowledge of the sport. They strive to foster an environment based on open communication that promotes teamwork, learning, fun and an unwavering pursuit of excellence.

Ev and Tiffany believe that getting to know their students as individuals: their likes, goals and learning styles, allows for a more tailored teaching approach with personalized exercises. This closely supervised instruction and out of the box thinking provides students with a solid foundation and the necessary skills to properly communicate with their horse: both in the saddle and on the ground.

Ev and Tiffany's calm disposition will put even the most timid riders at ease, helping them overcome their fears and becoming confident equestrians. It is clear the owners have a true passion for horses and bringing out the best in their students. This dedication and personal commitment to each student is what sets Brushy Hill Farm apart.
